Diversity of Decades

AOTW members listened to music spanning **55 years!**

The oldest album is *Pet Sounds* by The Beach Boys, releasing in May 1966. The latest album is *Blue Banisters* by Lana Del Rey, releasing in October 2021.

Two more AOTWs also released in 2021, though both released in February 2021.

The time span of 55 years is the **2nd largest** in AOTW history, surpassing Spring 2023's 51 years (1972-2023), but falling short of the all-time record of **65 years** set by Summer 2023 (1955-2020).

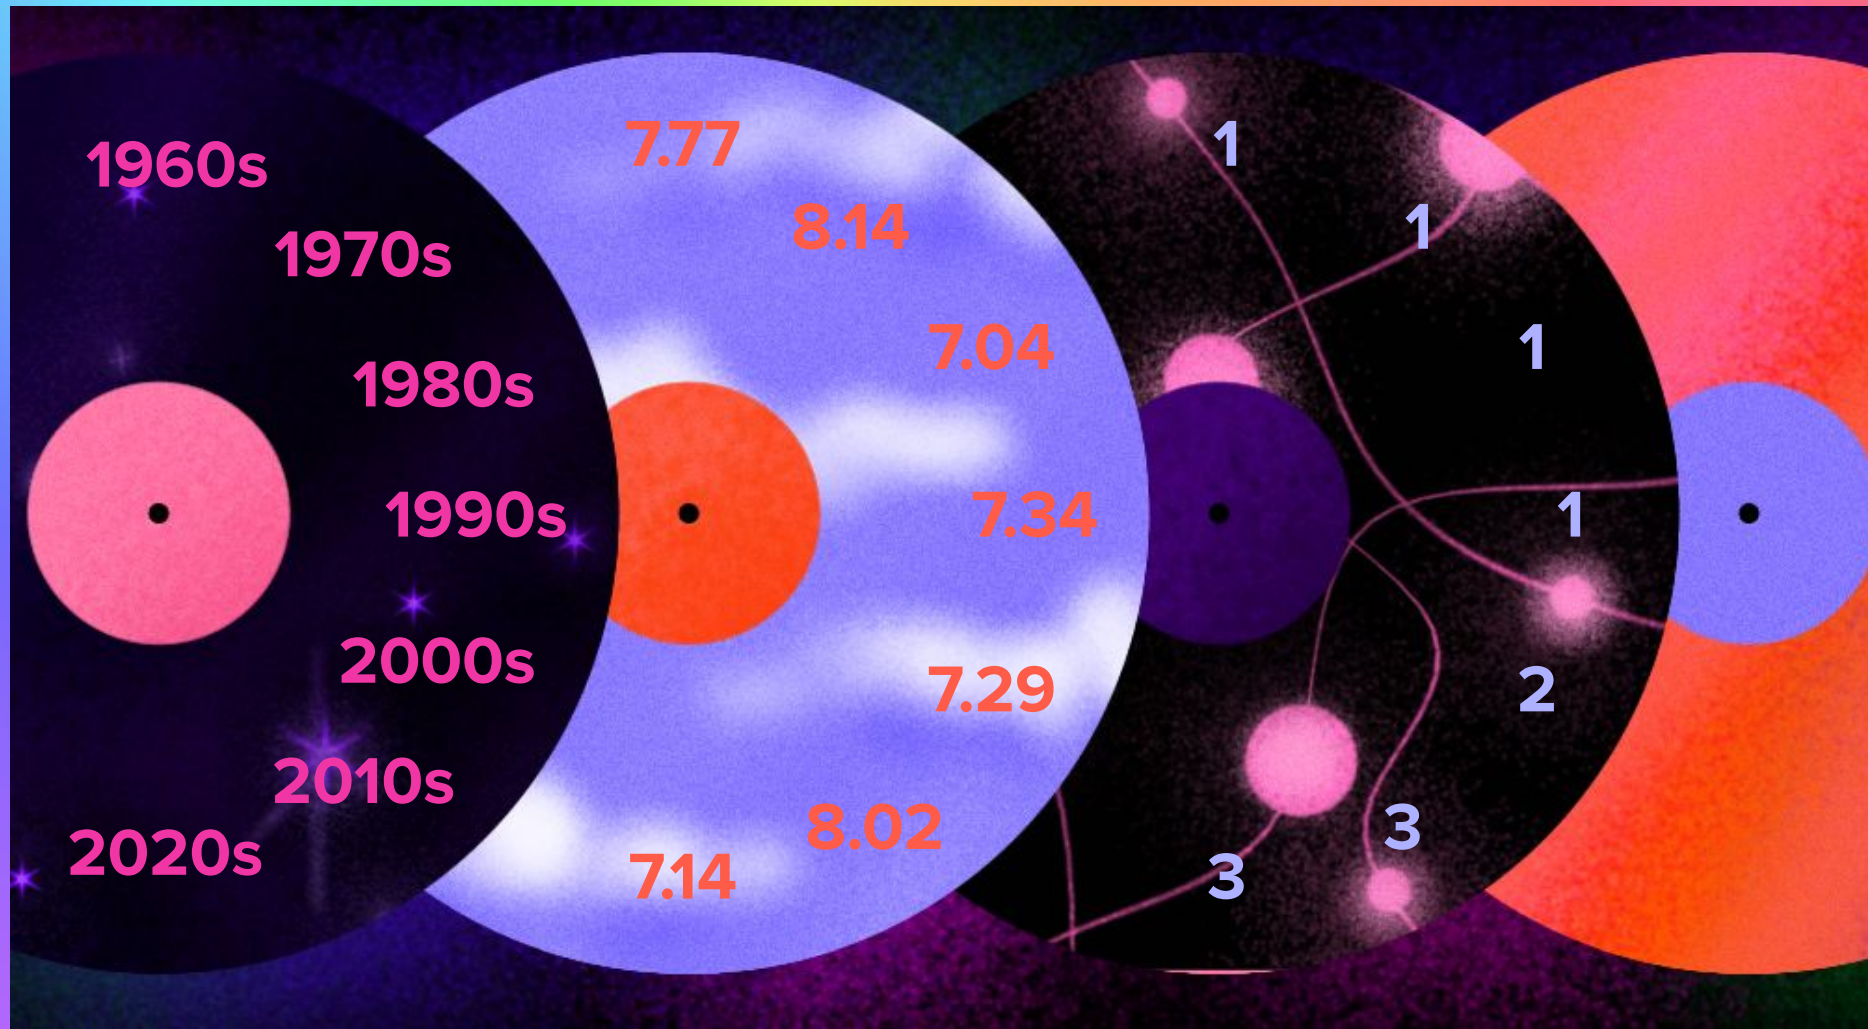

We've listened to three albums in **2021** this semester, far more than any other year. This means there have now been 4 AOTWs from 2021, tying 2021 for **1st** for the year with the most albums featured as AOTW (alongside 2012, 2020, and 2022).
